• Perfect to relax and socialise

Match your interior
• Super slim design

Light effect
• Uniform light distribution

Premium quality
• EyeComfort – light that's easy on the eyes
• Easy to clean

Highlights

Perfect to relax and socialise
The living room is the heart of any home: a place where families gather to relax and guests socialise. Lighting for your living room and bedroom has to be flexible and easy to adjust to its different uses throughout the day. Careful placement of different light sources and playing with light layering helps create the feeling of space and gives the room a warm and welcoming feel.

Super slim design
Slim design is ideal for low-ceiling rooms, sitting flush against the surface.

Uniform light distribution
Throw light across your rooms in an even and uniform manner.

EyeComfort
Poor quality light can cause eye strain. With many of us spending time indoors, it's more important than ever to properly light your home. Our products meet stringent test criteria including flicker, strobe, glare, colour rendition and dimming effects to ensure they meet EyeComfort requirements. Philips LED bulbs not only deliver comfortable light, but also stay that way for the duration of their lifespan, delivering consistent light quality, output and colour for more than a decade. Switch to light that's easy on your eyes. Your eyes will thank you.

Easy to clean
Smooth and easy-to-clean materials mean your home always looks attractive from floor to ceiling.
